WILD MAY FRUIT FLY CONTROL SYSTEM

- * WE CAN TAKE YOU BACK TO BASICS, GROWING YOU OWN FRUIT AND VEGIES
- * PROVEN ORGANIC SOLUTION TO FRUIT FLY PROBLEMS
- * WITH CLIMATE CHANGE AND THE GLOBAL FINANCIAL CRISIS, THIS METHOD SAVES YOUR DOLLARS
- * BY SIMPLY EATING AUSTRALIAN SEASONAL FRUITS AND VEGIES
- * FREE FROM POISONS AND PESTICIDES
- * PROMOTING HEALTHY FAMILIES

Pour attractant into base of trap to a minimum depth of 20mm, hang it in the garden and watch the males fly in. By maintaining your Wild May traps throughout the year, you'll be helping to protect your fruit crops and reduce the population in your district.

Wild May attractant is pesticide free and BFA registered, so it's allowable in organic systems.

Typical Catch

For best results maintain Traps all year long.....
